01

Introduction

Project Brief

The Greater Manchester (GM) Primary Care Provider Board (PCB) have responsibility for the GM Primary Care Networks (PCN) Development Programme. One of the key work streams is the sourcing, collection, presentation and reporting of meaningful data for PCNs.

In March 2021 the Utilisation Management Unit (UM) produced a 'Health Inequalities Data Report' for each of the Tameside and Glossop (T&G) PCNs. The reports provided an overview of multiple health inequality indicators and associated benchmarking, drawn from a range of existing data sources.

The PCB has commissioned UM to replicate (where possible) the work done for T&G and to produce reports for the remaining 62 PCNs across GM.

Utilisation Management Unit

02

Key Findings

Key Findings

Data had to be sought and collated from several different sources; not all were available on a GP practice or PCN footprint and/ or were current.

Significant analytical input has been required to present available data in a meaningful way.

Health outcome data by PCN, such as, cancer survival rates, mental health outcomes and mortality from cardiovascular and respiratory disease have not been locatable.

Whilst rich information likely exists at individual GP Practice level, PCN aggregated and linked datasets are not accessible for secondary use.

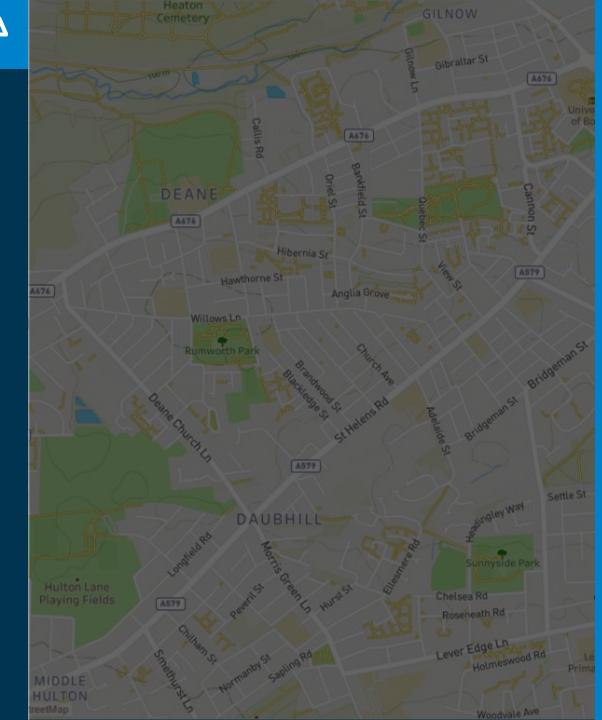

Interrogation and segmentation of PCN populations, for example, by patient demographics is not possible from data currently available for secondary use.

Actionable intelligence regarding PCN level health inequalities is limited in the absence of access to linked practice and patient level aggregated data.

Utilisation Management Unit

03

PCN Overview

9

Rumworth PCN

Collaborative of 4 GP Practices, located in the Rumworth community neighbourhood;

GP Practice Code	GP Practice	Electoral Ward	Community Neighbourhood
P82002	Pikes Lane 1	Rumworth	Rumworth
P82609	Shanti Medical Centre	Rumworth	Rumworth
P82009	St Helens Road Practice	Hulton	Rumworth
P82004	Swan Lane Medical Centre	Rumworth	Rumworth

In order to establish the nature and level of health and socio-economic inequalities Rumworth PCN, data have been sought at GP Practice and PCN levels where available.

Where this has not been possible this will be highlighted within the report.

For example, some data items were only available by Bolton resident population (community neighbourhood) rather than by registered PCN population (health neighbourhood).

Benchmarking at Bolton CCG, GM and national levels have been presented where data are available.

Population Demographics

∇^{Δ}

Rumworth PCN Population

Utilisation Management Unit

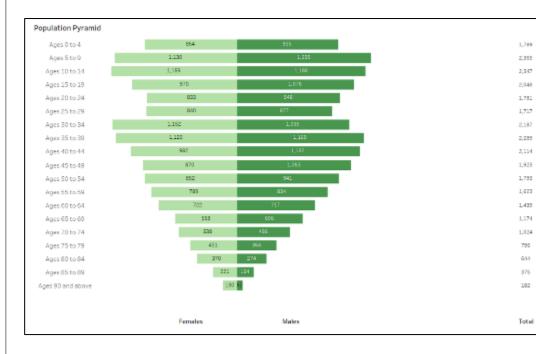

Current Registered Population = 29,609 Male: 51%; Female: 49%

Start well (0-18yrs): 28%

Live well (19-67yrs): 61%

Age well (67+yrs): 12%

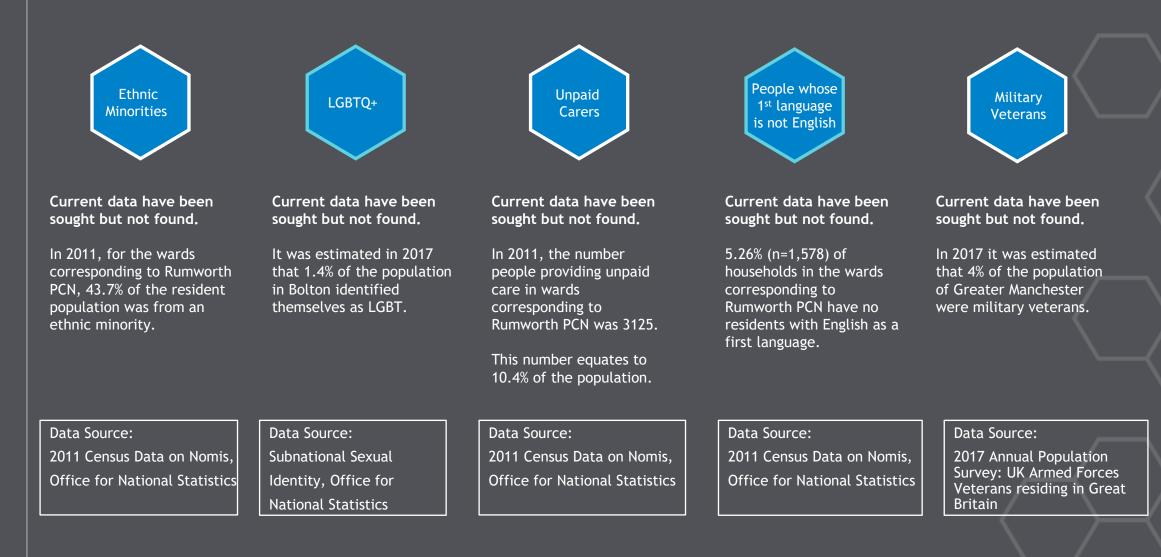

Data Source: GM PCN Dashboard, September 2021

Predicted CCG Population Growth Over the Next 10 Years

Bolton CCG	Population Estimate 2021	Population Estimate 2031	% Change
Age Group			
0-19	74876	74002	↓1.17% (n=874)
20-39	72049	69385	↓3.70% (n=2664)
40-59	74063	72221	↓2.49% (n=1842)
60-79	53882	59316	↑10.09% (n=5434)
80+	12837	17519	↑36.47% (n=4682)
Total *	287706	292443	↑1.65% (n=4737)

Predicted population growth across the CCG is in the 60-79 and 80 plus year groups. The impact of the current Coronavirus pandemic on this predictive analysis is not known.

Bolton Life Expectancy (Resident Population)

Utilisation Management Unit

Male Life Expectancy

Bolton: 78.0 years

North West: 78.3 years England: 79.6 years

Female Life Expectancy

Bolton: 81.5 years

North West: 81.9 years England: 83.2 years

ears

Male Healthy Life Expectancy

Bolton: 62.5 years

North West: 61.6 years England: 63.4 years

Bolton: 58.4 years

Female Healthy Life Expectancy

North West: 62.5 years England: 63.9 years

Male life expectancy from birth in Bolton is 1.6 years lower than the national average.

For women the gap is slightly larger at 1.7 years below the national average.

Healthy life expectancy is an estimate of lifetime spent in 'very good' or 'good' health based on how individuals perceive their health (ONS).

Figures for Bolton are below the national average by 0.9 years for men and by 5.5 years for women.

Data Source: Office for National Statistics (ONS)

Life Expectancy: Early Years

Premature Births (less than 37 weeks gestation)

Rate per 1,000 births.

06

Disease Prevalence

Asthma

Data Source: Quality Outcomes Framework, 2019/20

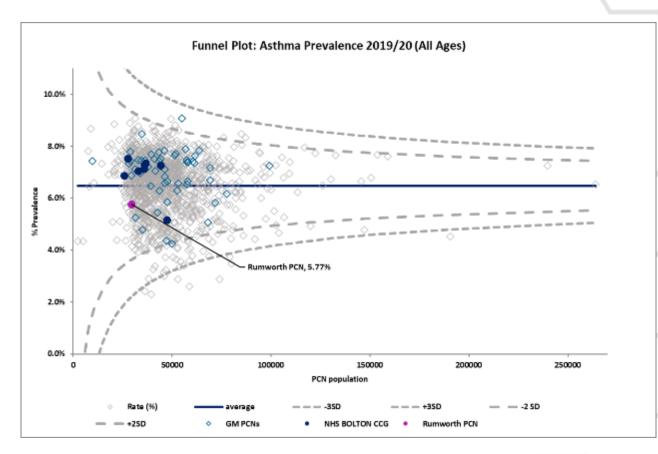

Rumworth PCN	Practice Prevalence
Asthma	
Pikes Lane 1	6.15%
Shanti Medical Centre	5.46%
St Helens Road Practice	6.26%
Swan Lane Medical Centre	5.32%
PCN Average	5.77%

GM Average	England Average
6.95%	6.48%

2019/20 data show that 79.38% were in receipt of an asthma review in the preceding 12 months.

Bolton Central PCN had the highest achievement rate across Bolton at 83.40%.

Utilisation Management Unit

Rumworth PCN's asthma prevalence is lower than the national average.

Cancer

Data Source: Quality Outcomes Framework, 2019/20

Rumworth PCN	Practice Prevalence
Cancer	
Pikes Lane 1	2.70%
Shanti Medical Centre	0.97%
St Helens Road Practice	3.24%
Swan Lane Medical Centre	2.17%
PCN Average	2.28%

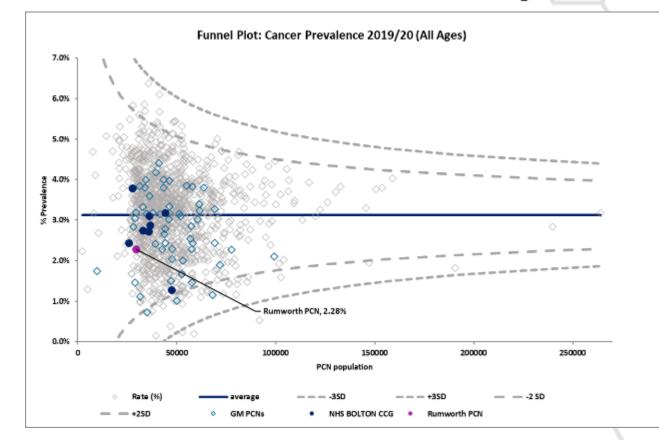

GM Average	England Average
2.76%	3.13%

Rumworth PCN's cancer prevalence is lower than the national average.

2019/20 data show that 94.74% of those diagnosed with cancer in the preceding 15 months, were in receipt of a review within 6 months of the date of diagnosis.

Westhoughton Network PCN had the highest achievement rate across Bolton CCG at 97.37%.

Utilisation Management Unit

Information regarding PCN cancer outcomes has been sought but not found, however district level data for 2017-19 suggest survival rates are lower across Bolton.

Fingertips PHE (2017-19) Per 100,000 Population	England	Bolton
Under 75 Mortality from Cancer	129.2	136.9
Under 75 Mortality from Cancer Considered Preventable	54.1	64.0

Cardiovascular Disease - Primary Prevention (30-74 years)

Utilisation Management Unit

Data Source: Quality Outcomes Framework, 2019/20

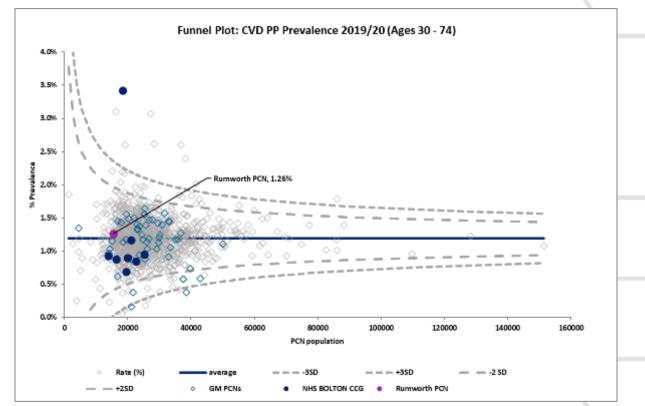

Rumworth PCN	Practice Prevalence
CVD-PP	
Pikes Lane 1	1.12%
Shanti Medical Centre	2.28%
St Helens Road Practice	0.75%
Swan Lane Medical Centre	1.08%
PCN Average	1.26%

GM Average	England Average
1.16%	1.19%

Rumworth PCN's CVD-PP prevalence is similar to the national average.

2019/20 data show that 90.00% of this cohort who had a recorded CVD risk assessment score of \geq 20% in the preceding 12 months were treated with statins.

Bolton Central, Horwich Network, Farnworth & Kearsley, and Westhoughton Network PCNs had the highest achievement rates across Bolton at 100%.

Information regarding PCN cardiovascular disease outcomes has been sought but not found, however district level data for 2017-19 suggest poorer outcomes across Bolton.

Fingertips PHE (2017-19) Per 100,000 Population	England	Bolton
Under 75 Mortality from all Cardiovascular diseases	70.4	99.7
Under 75 Mortality from Cardiovascular Disease Considered Preventable	28.2	39.4

Chronic Obstructive Pulmonary Disease (COPD)

Utilisation Management Unit

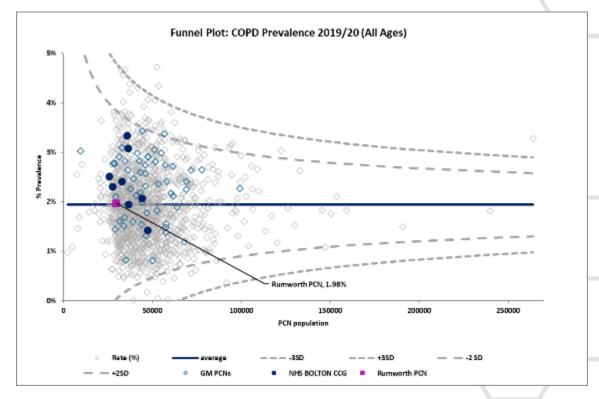

Data Source: Quality Outcomes Framework, 2019/20

Rumworth PCN	Practice Prevalence
COPD	
Pikes Lane 1	3.40%
Shanti Medical Centre	0.99%
St Helens Road Practice	2.23%
Swan Lane Medical Centre	1.58%
PCN Average	1.98%

GM Average	England Average
2.33%	1.94%

Rumworth PCN's COPD prevalence is similar to the national average, acknowledging variation at practice level.

2019/20 data show that 89.06% were in receipt of a COPD review in the preceding 12 months. Horwich Network PCN had the highest achievement across Bolton at 94.64%.

Information regarding PCN respiratory disease outcomes has been sought but not found, however district level data for 2017-19 suggest poorer outcomes across Bolton.

Fingertips PHE (2017-19) Per 100,000 Population	England	Bolton
Under 75 Mortality from Respiratory Disease	34.2	53.1
Under 75 Mortality from Respiratory Disease Considered Preventable	20.0	28.7

Dementia

Utilisation Management Unit

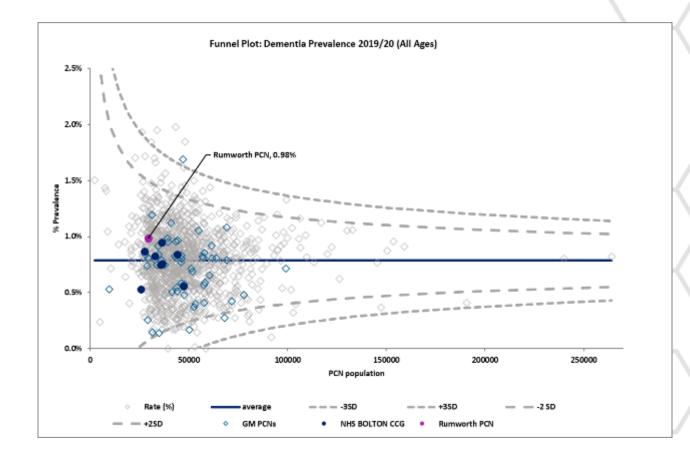

Data Source: Quality Outcomes Framework, 2019/20

Rumworth PCN	Practice Prevalence
Dementia	
Pikes Lane 1	0.81%
Shanti Medical Centre	0.18%
St Helens Road Practice	0.91%
Swan Lane Medical Centre	1.78%
PCN Average	0.98%

GM Average	England Average
0.73%	0.79%

2019/20 data show that 94.18% had their care plan reviewed in a face-to-face meeting in the preceding 12 months.

This was the highest achievement across Bolton.

Rumworth PCN's dementia prevalence is slightly higher than the national rate, acknowledging variation at practice level.

Diabetes (17 years+)

Utilisation Management Unit

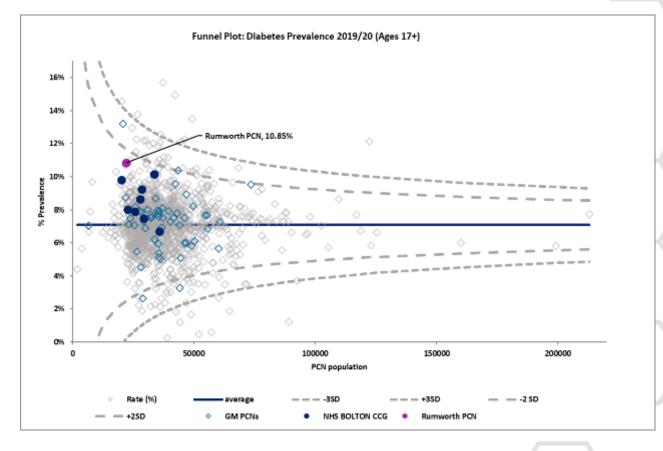

Data Source: Quality Outcomes Framework, 2019/20

Rumworth PCN	Practice Prevalence
Diabetes	
Pikes Lane 1	10.20%
Shanti Medical Centre	11.39%
St Helens Road Practice	9.27%
Swan Lane Medical Centre	12.34%
PCN Average	10.85%

GM Average	England Average
7.42%	7.08%

2019/20 data show in the absence of moderate or severe frailty, that for 62.59% their last IFCC-HbA1c was 58 mmol/mol or less in the preceding 12 months. Horwich Network PCN had the highest achievement across Bolton with 70.44%.

70.18% were recorded as being in receipt of a foot examination and risk classification within the preceding 12 months. Horwich Network PCN had the highest achievement across Bolton with 90.86%.

Rumworth PCN's diabetes prevalence is higher than the national average.

Hypertension

Utilisation Management Unit

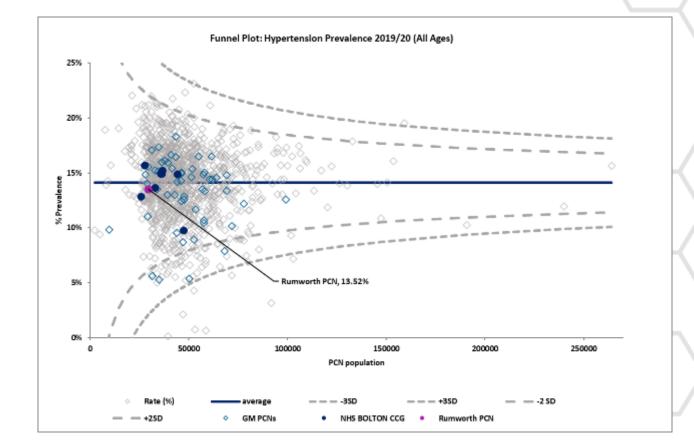

Data Source: Quality Outcomes Framework, 2019/20

Rumworth PCN	Practice Prevalence
Hypertension	
Pikes Lane 1	15.54%
Shanti Medical Centre	9.62%
St Helens Road Practice	15.33%
Swan Lane Medical Centre	13.29%
PCN Average	13.52%

GM Average	England Average
13.53%	14.09%

2019/20 data show for those aged 79 years or under, that for 71.16% their last blood pressure recording was 140/90 mmHg or less in the preceding 12 months.

Bolton Central PCN had the highest achievement rate across Bolton at 77.71%.

Rumworth PCN's hypertension prevalence was comparable to the national rate.

Learning Disability

Utilisation Management Unit

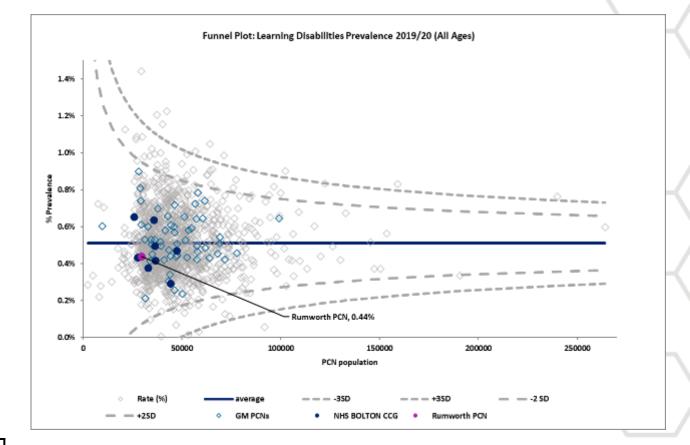

Data Source: Quality Outcomes Framework, 2019/20

Rumworth PCN	Practice Prevalence
Learning Disability	
Pikes Lane 1	0.48%
Shanti Medical Centre	0.49%
St Helens Road Practice	0.32%
Swan Lane Medical Centre	0.45%
PCN Average	0.44%

GM Average	England Average
0.53%	0.51%

Annual health check data which has been located by CCG suggest whilst there has been a reduction in the percentage of health checks completed, achievement rates were above GM and national levels in both 2018/19 and 2019/20.

Learning Disabilities Health Check Scheme, NHS Digital	2018/19	2019/20
Bolton CCG	70.7%	67.9%
GM	52.5%	55.9%
England	51.3%	51.9%

Rumworth PCN's learning disability prevalence is slightly lower than the national rate.

Severe Mental Health

Data Source: Quality Outcomes Framework, 2019/20

Rumworth PCN	Practice Prevalence
Severe Mental Health	
Pikes Lane 1	0.91%
Shanti Medical Centre	0.85%
St Helens Road Practice	1.23%
Swan Lane Medical Centre	1.14%
PCN Average	1.04%

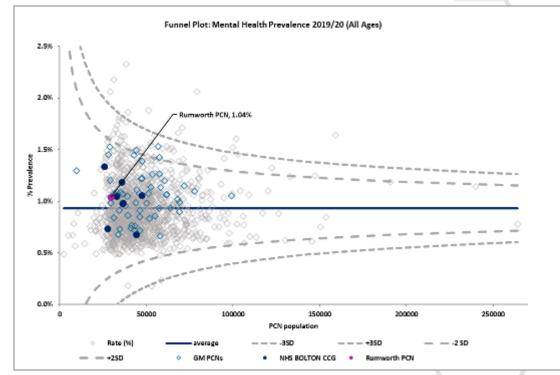

GM Average	England Average
1.03%	0.93%

2019/20 data show that 82.16% of those on the severe mental health register had a comprehensive care plan documented in their care record in the preceding 12 months.

Turton PCN had the highest achievement rate across Bolton at 94.50%.

Information regarding PCN Mental Health outcomes has been sought but not found, however district level data suggest a similar level of intentional self-harm across Bolton, when benchmarked against national figures.

Utilisation Management Unit

Rumworth PCN's severe mental health prevalence is similar to the national average.

Fingertips PHE Per 100,000 Population	England	Bolton
Suicide Rate (2017/19)	10.1	11.2
Emergency Hospital Admissions for Intentional Self-Harm (2019/20)	192.6	186.2

Visual Impairment

Utilisation Management Unit

NHS

Data regarding the number of Rumworth PCN adults who have a moderate or severe visual impairment has been sought but not found. Estimated numbers with projections to 2040 that are available on a Bolton footprint, suggest increasing prevalence attributed to ageing populations. Whilst some sight loss may be correctable, age related macular degeneration is the most common cause of registrable sight loss in older people.

Bolton	2020	2025	2030	2035	2040
People aged 18-64 predicted to have a serious visual impairment	109	109	109	109	109
People aged 65-74 predicted to have a moderate or severe visual impairment	1,546	1,490	1,652	1,792	1,747
People aged 75 and over predicted to have a moderate or severe visual impairment	2,802	3,311	3,472	3,683	4,042
Total	4,457	4,910	5,233	5,584	5,898

Data and Information Source: Projecting Adult Needs and Service Information System (PANSI) and Projecting Older People Population Information System (POPPI)

Hearing Loss

Utilisation Management Unit

Data regarding how many Rumworth PCN adults have hearing loss has been sought but not found.

Estimated numbers with projections to 2040 available on a Bolton footprint suggest increasing prevalence attributed to an ageing population.

Hearing loss is a common but often unacknowledged long term condition that can have an adverse impact on a person's health and quality of life.

Bolton Some Hearing Loss	2020	2025	2030	2035	2040	Bolton Severe Hearing Loss	2020	2025	2030	2035	2040
People aged 18-64 predicted to have some hearing loss	16,492	17,002	16,782	16,343	16,181	People aged 18-64 predicted to have severe hearing loss	997	1,038	1,020	976	964
People aged 65-74 predicted to have some hearing loss	12,827	12,084	13,270	14,534	14,392	People aged 65-74 predicted to have severe hearing loss	828	778	853	936	928
People aged 75 -84 predicted to have some hearing loss	11,823	14,041	14,793	14,372	16,125	People aged 75 -84 predicted to have severe hearing loss	1,626	1,890	2,203	2,022	2,230
People aged 85+ predicted to have some hearing loss	5,466	6,161	7,202	8,933	9,220	People aged 85+ predicted to have severe hearing loss	1,305	1,471	1,720	2,133	2,201
Total	46,608	49,288	52,047	54,182	55,918	Total	4,756	5,177	5,796	6,067	6,323

Disease Prevention

7.1 Life Style

 ∇

Physical Activity

Information regarding physical activity was only locatable at a district level.

Fingertips PHE (2018/19)	England	Bolton
Percentage of Physically Active Children and Young People	46.8%	46.0%
Percentage of Physically Active Adults	67.2%	61.6%

For the period 2018/19, data suggest when benchmarked against national figures, a higher proportion of physically inactive adults in Bolton.

The percentage of physically active children and young people is in line with the national average.

Obesity (18 years+)

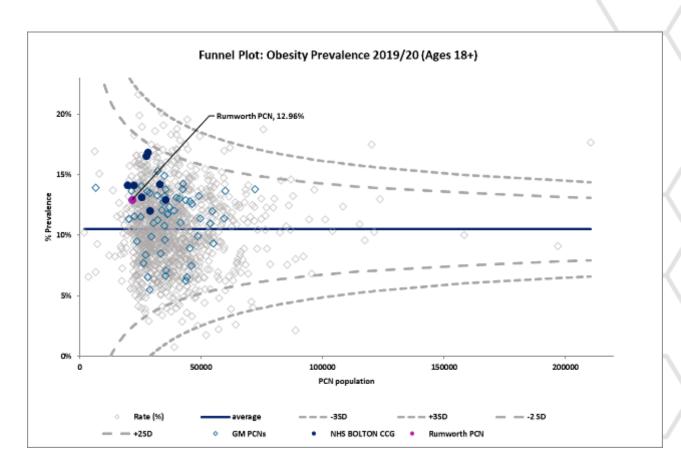

Data Source: Quality Outcomes Framework, 2019/20

Rumworth PCN	Practice Prevalence
Obesity	
Pikes Lane 1	12.41%
Shanti Medical Centre	11.54%
St Helens Road Practice	11.81%
Swan Lane Medical Centre	15.38%
PCN Average	12.96%

GM Average	England Average
11.58%	10.51%

Data regarding **childhood obesity** has only been locatable at a district level;

Fingertips PHE	England	Bolton
Year 6: Prevalence of Overweight including Obesity (2019/20)	35.2%	36.1%

As is the case for all PCNs within Bolton CCG, Rumworth PCN's obesity prevalence is higher than the national average.

Smoking (15 years+)

NHS

Utilisation Management Unit

Data Source: Quality Outcomes Framework, 2019/20

Rumworth PCN	Practice Prevalence
Smoking	
Pikes Lane 1	22.96%
Shanti Medical Centre	14.80%
St Helens Road Practice	18.13%
Swan Lane Medical Centre	15.81%
PCN Average	18.07%

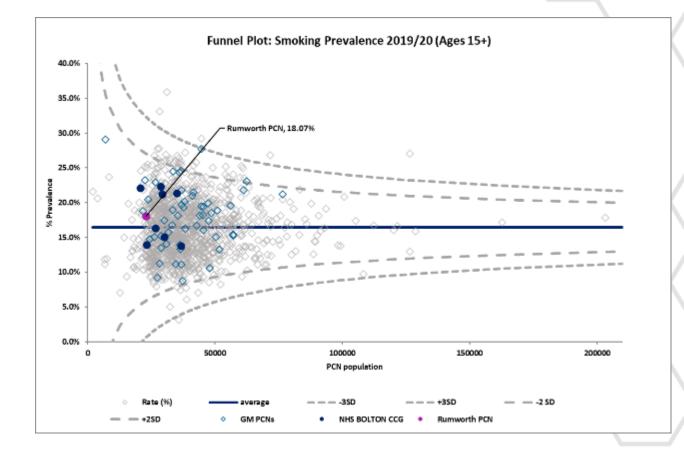

GM Average	England Average
18.16%	16.47%

2019/20 data show that 82.43% of smokers had a record of an offer of support and treatment within the preceding 24 months.

Breightmet and Little Lever PCN had the highest achievement rate across Bolton at 92.96%.

Data regarding **smoking in pregnancy** has only been locatable at a district level;

Fingertips PHE	England	Bolton
Smoking Status at Time of Delivery (2019/20)	10.4%	12.4%

Rumworth PCN's smoking prevalence is similar to the national rate.

Data regarding the prevalence of e-cigarette use have been sought but not found.

Children & Young People

Tooth Decay in 3 Year Olds

Mean severity of tooth decay in children aged three years based on the mean number of teeth per child sampled which were either actively decayed or had been filled or extracted.

	2012/13	2019/20
Bolton	0.76	Not available
NW	0.47	0.42
England	0.36	0.31

Chlamydia Detection Rates

All chlamydia diagnoses in 15 to 24 year olds attending specialist and non-specialist sexual health services, who are residents in England, expressed as a rate per 100,000 population.

	2015	2016	2017	2018	2019	2020

7.2 Immunisation

Flu Vaccination: 65 & Over

Utilisation Management Unit

Data Source: GM HSCP

2019/20 Flu Season: Rumworth PCN 65 & over vaccination uptake was 76.17%.

2 practices met the 75% vaccination target in 2019/20.

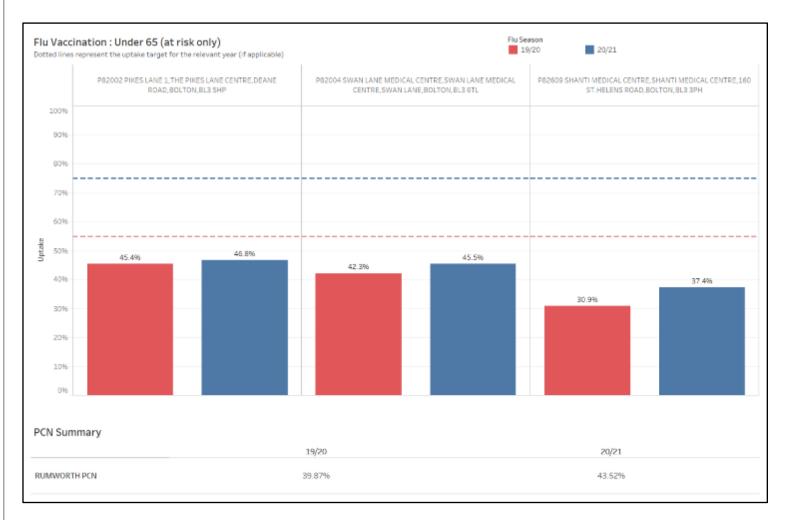

2020/21 Flu Season: Vaccine uptake increased slightly with an overall rate for the PCN of 79.74%.

2 practices met the 75% vaccination target in 2020/21.

Data not available via GM HSCP for P82009 - St Helens Road Practice

Flu Vaccination: Under 65 (at risk only)

Utilisation Management Unit

2019/20 Flu Season: Rumworth PCN's under 65 at risk only vaccination uptake

was 39.87%.

Data Source: GM HSCP

No practices reached the 55% uptake target in 2019/20.

2020/21 Flu Season: Rumworth PCN's under 65 at risk only vaccination uptake increased slightly to 43.52%.

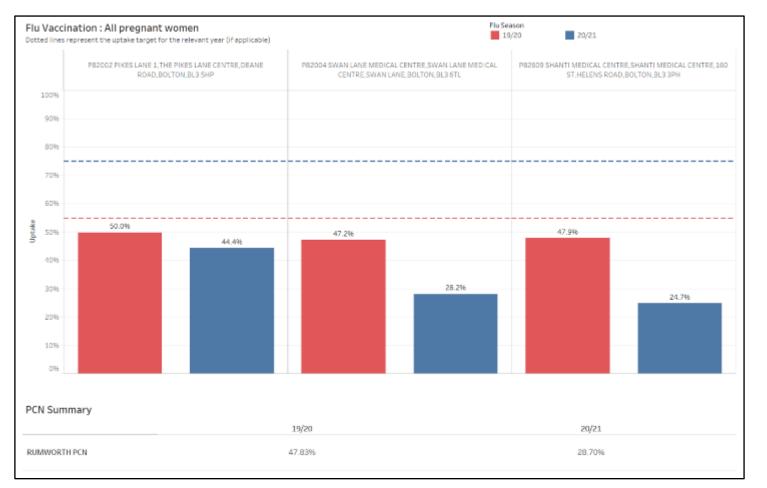

However, no practices reached the revised target of 75% in 2020/21.

Data not available via GM HSCP for P82009 - St Helens Road Practice

Flu Vaccination: All Pregnant Women

Utilisation Management Unit

Data Source: GM HSCP

2019/20 Flu Season: Rumworth PCN's all pregnant women vaccination uptake was 47.83%.

No practices reached the 55% uptake target in 2019/20.

2020/21 Flu Season: Uptake across the PCN was 28.70%, lower than that of the previous year.

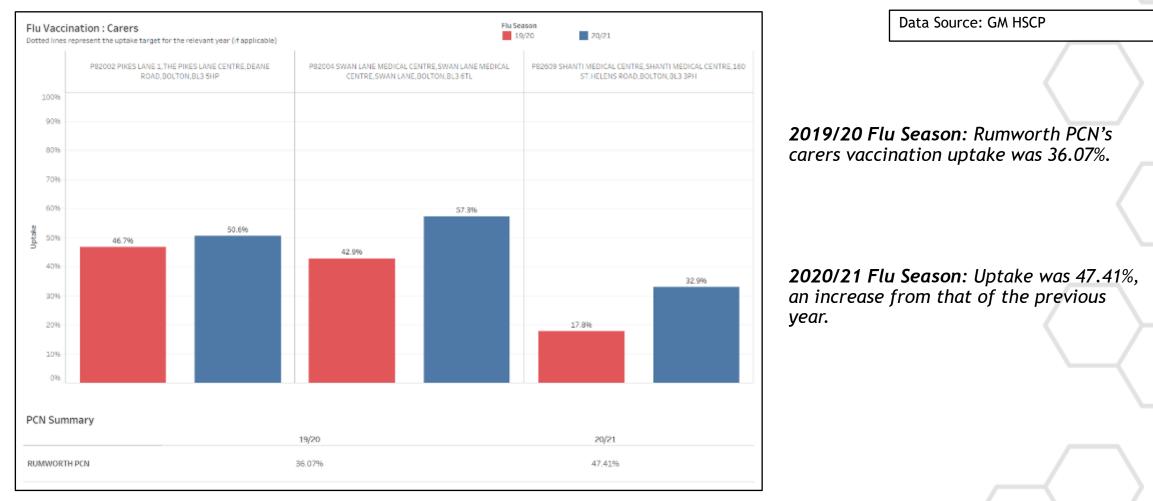

No practices reached the revised 75% uptake target in 2020/21.

Data not available via GM HSCP for P82009 - St Helens Road Practice

Utilisation Management Unit

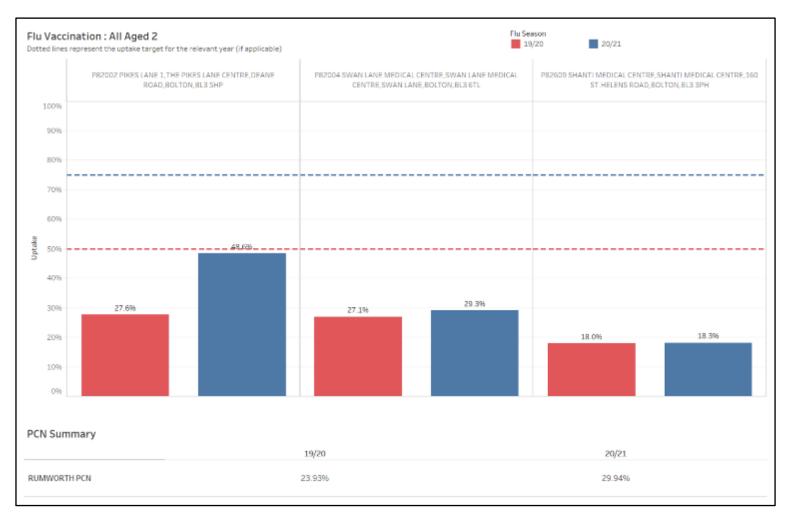

Data not available via GM HSCP for P82009 - St Helens Road Practice

Flu Vaccination: All Aged 2

Utilisation Management Unit

Data Source: GM HSCP

2019/20 Flu Season: Rumworth PCN's all aged 2 vaccination uptake was 23.93%.

No practices reached the target of 50% in 2019/20.

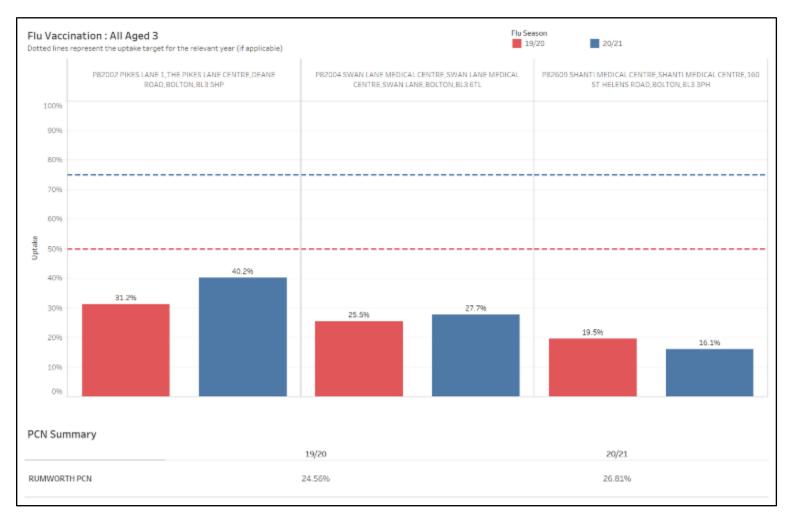

2020/21 Flu Season: Uptake was of a higher than that of the previous year across the PCN with a rate of 29.94%.

However, no practices reached the revised 75% uptake target in 2020/21.

Flu Vaccination: All Aged 3

Utilisation Management Unit

Data Source: GM HSCP

2019/20 Flu Season: Rumworth PCN's all aged 3 vaccination uptake was 24.56%.

No practices reached the target of 50% in 2019/20.

2020/21 Flu Season: Uptake was of a similar level across the PCN at 26.81%. No practices reached the revised 75% uptake target in 2020/21

Data not available via GM HSCP for P82009 - St Helens Road Practice

Child Immunisations Up to Five Years of Age (GP)

Data Source: Child Health Information Systems, Public Health England, 2019/20

Expectation in the UK is that there is 95% coverage of all routine childhood

immunisations for those up to five years of age (BMA, 2020).

6-in-1 Vaccine 3 doses at 8,12 & 16 weeks

Data Measure

% of children who received 3 doses of the 6in-1 vaccine by their 1st birthday. Hib/ MenC Booster

1 dose at 1 year

Data Measure

% of children who received 1 dose of the Hib/ MenC booster (or 1 dose of the 6-in-1 vaccine and 1 dose of MenC) on or after their 1st birthday, up to their 2nd birthday.

6-in-1 Vaccine	% Vaccinated
Westhoughton Network	98.00%
Horwich Network	96.88%
Turton	96.59%

Air Pollution

Fine particulate matter (PM2.5) is comprised of particles with a diameter smaller than 2.5µm. Sources can be industrial, commercial and agricultural in nature; however, road transport remains the biggest contributor to urban pollution.

PM2.5 can penetrate deep into the lungs and enter the blood stream. Exposure is associated with poor health outcomes from diseases, such as, asthma, COPD, lung cancer and coronary heart disease and impacts on low birth weight, diabetes and neurodegenerative diseases.

Whilst there are no established safe inhalation levels, the World Health Organisation (WHO) advocates a PM2.5 annual limit of 10µg/m3 as a starting point to encourage progressive reductions.

Whilst predicted annual average data from the British Lung Foundation (2018) suggest that Rumworth PCN practices are not located in areas which exceed WHO safe air pollution limits, it is acknowledged that actual PM2.5 levels may be greater in some areas when taking into consideration short-term exposure to high levels of fine particulate matter by the side of busy roads.

Rumworth PCN	РМ2.5 (µg/m3)

Summary

Summary

Utilising the data that are currently available it is not possible to comprehensively establish the nature, level and drivers of health inequalities across the nine Bolton PCNs.

Health outcome data do not appear to be available on a PCN footprint.

Whilst rich information is likely available at individual GP practice level, PCN aggregated and linked datasets are not accessible (for secondary use) to provide actionable insight into which communities and individuals to target, engage and work with where;

- Comparatively high disease prevalence exists.
- There are opportunities for life style interventions.
- There is overutilisation of unplanned services, such as, NHS 111 and ED, and underutilisation of preventative services, such as, annual health reviews and checks, immunisation and cancer screening.

Or to scrutinise practice level activity in order to identify, understand and reduce any unwarranted variation.

Thank you
